## National Park

# Isojärvi

The wooded hills and valleys around Lake Isojärvi bear traces left by both two-legged and four-legged loggers. Old cycle paths lead to former lumberjacks' cabins and croft houses. The only loggers working in the park today are beavers. It's hard to spot these shy animals, but you can't miss the impressive results of their labours.

### Hiking and paddling

Several circular trails, picnic sites and lean-to shelters make Isojärvi a perfect place for both daytrips and overnight camping trips. You can enjoy the rugged scenery of Lortikanvuori Hill and look out for beaver dams and

lynx tracks. The long Lake Isojärvi has formed in an ancient fracture valley. Its clear waters are as deep as 80 metres in places. The lake is ideal for canoeing. Paddlers can camp out overnight by the shelter on Renusaari Island.

### Old loggers' cabins and heritage landscapes

Isojärvi also has a rich cultural heritage. The old croft at Huhtala preserves memories of the crofter's life long ago. A former loggers' cabin at Lortikka can now be rented by visitors to the park. An old cycle path leads from Heretty to Lortikka. The fisherman's cabin at Luutsaari was first used in the 19th century.

### Services by entrepreneurs

Heretty Logger's Cabin has a summer café selling snacks and offering visitors tips for trips. You

can also rent hiking gear, canoes, kayaks, rowing boats, fat bikes and rental huts.
