- Good running shoes and weather-appropriate clothing
- Light meal and plenty of fluids
- Toilet paper, matches and a knife

SERVICES ALONG THE TRAIL:

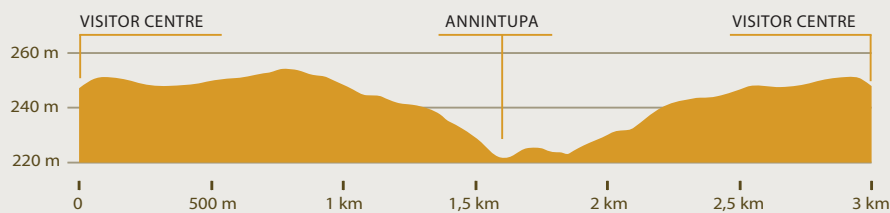

- Annintupa Hut
- Syöte Visitor Centre

NAAVAPARTA TRAIL 3 KM

Trail guide

TRAIL TOPOGRAPHY:

TRAIL DESCRIPTION:

The trail starts at the Visitor Centre and goes all the way to Annintupa Hut, where you can make a campfire and have a picnic. This side of the path is also suitable for prams. The trail back is narrower, winding through the depths of the forest towards the Visitor Centre. The total length of the trail is 3 kilometres. The wider side of the trail also acts as a mountain biking route. During the wintertime, any snow on the route to Annintupa Hut and back is treaded flat using a snowmobile.

GOOD TO KNOW:

- tour/mountain biking is only allowed on roads and separately-marked biking routes along the trail.
- during forest fire warnings, making any open fires is expressly prohibited
- pets are welcome on the route and in the huts. Please remember to keep your animal friends leashed at all times.
- there are no waste receptacles at the rest stops, so please remember to "Leave No Trace"
- the dry toilets do not include any toilet paper
