

# Ketunlenkki

**Ketunlenkki is a classical Repovesi trail which sums up key elements of the park: sheltered lakes, steep cliffs and excellent hiking structures.**

The view from the high Lapinsalmi bridge and the manually operated, easy-to-use Ketunlossi ferry make the trail an experience for the whole family. The trail follows the shores of Kapiavesi Lake, offering glimpses of its blue waters along the journey. In Määkijänniemi, you will have a change of scenery: commercial forests have been restored to a more natural state by controlled burning.

There are several campfire sites and a rental hut on Ketunlenkki. Extending your hike is also easy, as Ketunlenkki connects with other trails in the park. This scenic trail is the busiest in Repovesi, and especially on nice summer days or crisp autumn weekends you will not feel lonely here!
