TRAIL TOPOGRAPHY:

TRAIL DESCRIPTION:

The western parking area is located right next to the covered barbecue in Soiperoinen. The trail is marked with orange signs. The route goes along a forested path up to the esker that pierces through Soiperoinen and Lake Rääpysjärvi. While on the esker, eagle-eyed visitors may be able to spot deer hunting pits, remnants of how the Forest Sami people used to hunt back in the old days. While on the path that goes along the top of the esker, visitors can go on a circle route to the Poromyllykylä path, which features a lean-to shelter along the

way. This lean-to shelter is located on the eastern side of Lake Rääpysjärvi and provides a gorgeous view of the glittering lake. The Soiperoinen path descends from the esker back to the western end of Soiperoinen, where you will find a day hut and campfire site. Walk to the nearby bridge to catch a glimpse of the plump perches that like swim amongst the sunken logs. From the day hut, the route winds back to the barbecue site first through a forest and then on a 400-metre-long forest road.

GOOD TO KNOW:

- tour/mountain biking is only allowed on roads and separately-marked biking routes along the trail.
- during forest fire warnings, making any open fires is expressly prohibited
- pets are welcome on the route and in the huts. Please remember to keep your animal friends leashed at all times.
- there are no waste receptacles at the rest stops, so please remember to "Leave No Trace"
- the dry toilets do not include any toilet paper
